OFFICE OF THE COMPILER, *MYSORE GAZETTE*, BANGALORE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matters intended for publication in Parts I, II, III, IV, V and VI should therefore reach this office not later than *Monday Evening*, and that for Part II not later than *Tuesday Evening* for the following Thursday's issue of the Gazette. (ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919. in regard to notices calling for tenders for the purchase of stores or for the execution of works. Conditions.

(*a*) That the contractor shall be ever ready during the period of contract to employ as many number of coolies who know how to work at sandal, so as to turn out the allotted quantity every week, fortnight or month as may be assigned.

(*b*) That in case the contractor fails to employ the number of coolies required so as to turn out the allotted quantity of prepared wood at any time, the officer-in-charge of the Koti shall make his own arrangements for the preparation of the wood by employing coolies, making the contractor liable to pay up the cost, even though it may happen to be extra. The contract will also be liable for cancellation at the discretion of the District Forest Officer on account of default.

(*c*) The Koti preparation work will be commenced at 8 A.M. and continued till 6 P.M. everyday with an interval of an hour or two from 12 NOON.

(*d*) The available tools in the Koti shall be spared for work and in case the number of coolies is more than that of tools available, the contractor should himself provide the extra tools required. The tools spared from the Government should be returned intact, as otherwise, the cost thereof will be deducted from out of the contractor's dues or from his security deposit amount.

(*e*) That the contractor should be present at the Sandal Koti at all times the preparation is going on and he shall be solely responsible for all acts and omissions by his coolies.

(*f*) That the Koti preparation will be done in strict conformity with the assortment rules and as per directions of the officer-in-charge of the koti. That the rough wood to be given will be lotwar and until such lots once given are all fully worked out and assorted, no further fresh lots will be given out for assortment.

N.B.—As a rule, higher rates are payable for the superior classes of prepared wood and less for Milva-chilta. Hence, two different rates should be quoted in the tender, one for the outturn of superior classes and the other for Milva-chilta, since the object aimed at is that greater care should be taken by the contractor to see that the Koti preparation work is conducted on principles of economy so as not to waste heartwood by conversion into chips. No charges are payable on the Milva-chilta if the outturn of the same is 15 per cent in proportion to the total production of good wood.

(h) That no smoking will be permitted anywhere in the precincts of the Sandal Koti building and that in case of danger to the sandalwood by fire, the contractor will be liable to the Department for damages which will be recoverable as if it were an arrear of land revenue.

N.B.—As a rule, higher rates are payable for the superior classes of prepared wood and less for Milva-chilta. Hence, two different rates should be quoted in the tender, one for the outturn of superior classes and the other for Milva-chilta, since the object aimed at is that greater care should be taken by the contractor to see that the Koti preparation work is conducted on principles of economy so as not to waste heartwood by conversion into chips. No charges are payable on the Milva-chilta if the outturn of the same is 15 per cent in proportion to the total production of good wood.

Press Note.

Certain instances have come to the notice of Government in which by infringing the Trade Marks of manufacturers of well-known products, spurious goods are being pushed into the market for sale as genuine goods. As a result, the interests of manufacturers of these well-known products are jeopardised by loss due to such imitation and infringement. The public are also being duped by the sale of spurious goods. It is, therefore, considered necessary to check the sale of spurious goods by taking suitable action against offenders under the existing law.

The sale of spurious goods under false Trade Marks or in containers of the original manufacturers is punishable as an offence of cheating under Section 420 of the I.P.C. Manufacturers of spurious goods, printers of false labels and collectors of the empty containers of well-known brands are thus liable under this section as abettors. Persons who display spurious goods in a shop with intent to sell will also be similarly liable as abettors.

As the offence of cheating under Section 420 of the Indian Penal Code is a cognizable offence and in order to put down the traffic in spurious goods, necessary action will be taken by the Police under Section 157 of the Code of Criminal Procedure, 1898. Persons selling spurious goods, printers of false labels, etc., will be prosecuted for cheating or for abetment of cheating.

Manufacturers of and dealers in genuine goods and members of the public are requested to inform and assist the Police to take effective action in putting down the traffic in spurious goods.

MYSORE MANURE MIXTURES QUALITY AND PRICE CONTROL ORDER, 1953.

The "Mysore Manure Mixtures Quality and Price Control Order, 1953" has been promulgated by the Government of Mysore to see that the manure dealers in the State, who deal in mixtures of manures and fertilizers guarantee the content of the different plant foods contained in a mixture and the price of such mixture is also fixed on the basis of the current value of plant foods contained in it, allowing the dealer a reasonable margin of profit for the trouble involved in mixing, bagging, and marketing these. The order is intended to prevent the sale by bogus firms of spurious materials which have little or no manurial value or sale of materials whose value is disproportionate to the price charged for them.

By this means, the raiyat of the State is assured that he pays the right price for the manure mixture meant for the proper crop. Provision is also made in the order for the test collection of samples from the stocks with manure dealers, for their analysis in the laboratory of the Agricultural Chemist. Penal provisions are also provided in the order for impermissible deviations from the guaranteed contents of the mixtures and the actual analytical results.

For 'A' Licence Course a trainee has to put in approximately 20 hours of Dual Instruction and 5 hours of Solo, and pass the flying tests as well as written examination conducted by the Director-General of Civil Aviation, New Delhi. This examination is held at Bangalore. The period required for obtaining 'A' Licence is approximately 3 months, the duration depending upon the ability, capacity and aptitude of the trainee. This period could be even reduced to six weeks as there are instances in which trainees have finished their flying course and test in six weeks. But the written examination is held once in three months—in March, June and September and December of each year. The students should pass in an examination in Indian Aircraft Act and Rules. It consists only one paper and a candidate will be declared to have passed the examination if he obtains not less than 75 per cent of the marks.

'B' Licence Course.—'B' Licence course can be taken up after obtaining 'A' Licence, by those who want to become regular pilots and take up to the commercial lines and also enter into advanced course of Aviation. For this at least 200 hours of Solo and 50 hours of Dual are required and have to pass the required examinations. The period required will be about 2 years. This will cost about six thousand rupees, depending again upon the ability, capacity and aptitude of the pilot. The trainee will have to undergo Air Legislation and Other Technical examinations.

Hours of training.—Flying training is imparted both in the mornings and evenings, by well qualified, able and experienced Pilot-Instructors and under proper authority.

Jakkur Aerodrome is situated only at a distance of four miles from the Bangalore City limits. City Bus services run from Majestic Circle to Yelahanka *via* this Aerodrome, every 45 minutes. So, there is no difficulty about transport. Trainees will have to make use of this City Bus Service or make their own transport arrangements.

No Boarding and Lodging facilities are available at the Aerodrome. Trainees will have to make their own arrangements at Bangalore City.

Applications for admission can be had free from the Principal, Government Flying Training School, Jakkur Aerodrome, Yelahanka Post, Bangalore, on request.

Press Note.

The Mysore Rationing Order (Food) No. 2, which was in force in the cities of Bangalore, Kolar Gold Fields and Davangere has been repealed with effect from 1st May 1953. With a view to obviating any difficulties that may be felt by the public in the early stages of decontrol, all the existing ration shops will continue to function as Fair Price Shops from 1st May 1953 and persons who want to obtain their rations through these Fair Prices Shops may continue to do so by presenting the ration cards which they now possess. There will, however, be no restriction as regards the transport of foodgrains by consumers from any place to any other place in the State or the purchase of foodgrains in the open market for their *bona fide* consumption.

2. With the repeal of the rationing order, there will be no restriction at all regarding the quantity of foodgrains to be consumed by individual persons or for acquiring foodgrains in the open market with refence to their needs. The issue of foodgrains through Government Fair Price Shops will, however, be restricted to the quantities allowed on ration cards prior to the repeal of this order.

3. The Government of India have promulgated the Foodgrains (Licensing and Procurement) Order, 1952 and have extended its application to all the States including Mysore The main object is to clothe with authority State Governments which have decontrolled foodgrains, to commandeer foodgrains at reasonable prices, if, as a result of decontrol, prices of foodgrains rise abnormally or lead to hoarding. According to this Order :—

(1) It is obligatory for every dealer in foodgrains (both retail and wholesale) to obtain a license from the Deputy Commissioner for dealing in foodgrains. The license fee is Rs. 25 per annum.

(2) License is not, however, required for persons who have stocks up to 15 Imperial Maunds only which is equivalent to about six pallas of foodgrains.

(3) Landholders and their cultivators who grow foodgrains are not required to take out a license when their stocks do not exceed 100 (One Hundred) Imperial Maunds which is equal to about 36 (thirty-six) pallas of foodgrains.

4. The Government of Mysore are, however, exploring the possibility of removing even this small restriction with regard to license. Instructions have also been issued to see that no unnecessary harassment is caused to persons in the initial stages on account of the time-lag in obtaining licenses, and for such other technical defects. They are also taking steps to see that the usual normal trade channels are revived. Petty dealers in shandies, etc. will not be subject to hardship.

5. There will be no restriction with regard to the use of cereals and other erstwhile rationed articles in hotels and restaurants, and the number of courses to be served in lunches and dinners and also on the preparation of idlies and dosais out of rice. Restrictions regarding the number of people to be fed on the occasion of entertainments, marriages and funerals, etc., have been removed. The restriction over the opening of new catering establishments will, however, be continued for some time to come.

6. It is obvious that the successful implementation of the new policy requires the whole-hearted co-operation of the public in general and the merchants in particular. Government fervently hope that this co-operation will be forthcoming in abundant measure.

OFFICE OF THE PRINCIPAL, GOVERNMENT FLYING TRAINING SCHOOL, JAKKUR AERODROME, YELAHANKA POST, BANGALORE.

Notification No. 164, dated 25th April 1953.

Applications are invited from qualified young men for admission into the Flying Course in Government Flying Training School, Jakkur Aerodrome, Bangalore.

Qualifications.—The trainees should have passed S.S.L.C. or Matriculation and must possess good knowledge of English.

Age.—Students should be below 28 years of age. If the students are below 28 years of age they will be entitled to a concession in the flying fees. If they are more than 28 years of age, they will still be admitted but they will not be entitled to the concession in flying fee that is given by the Government of India to those who are below 28 years.

Medical Certificate and Physical Fitness.—Students should possess good physique and eye sight and should produce a Medical Certificate from an approved Doctor.

Initial Deposit.—A sum of Rs. 600 should be deposited initially. This amount will be adjusted towards admission fee during the first month and towards his flying fees and membership fees subsequently. The membership fees is Rs. 5 a month. The flying fees is Rs. 25 per hour for Tiger Moth Aircraft and Rs. 20 per hour for Aeronca Aircraft. Trainees can qualify themselves for the 'A' Licence standard, *i.e.*, (Preliminary) or the 'B' Licence standard which is advanced.

'A' Licence.—The 'A' Licence standard is taken up by most people as a Hobby. But young men of the Colleges and members of National Cadet Corps who possess this licence have a definite advantage if they choose to join the Indian Air Force of the Indian Defence Services. They will be shown a concession in the age if they want to appear for the commissioned ranks in the I.A.F. It is therefore very advantageous to the College students and candidates of N.C.C.

For 'A' Licence Course a trainee has to put in approximately 20 hours of Dual Instruction and 5 hours of Solo, and pass the flying tests as well as written examination conducted by the Director-General of Civil Aviation, New Delhi. This examination is held at Bangalore. The period required for obtaining 'A' Licence is approximately 3 months, the duration depending upon the ability, capacity and aptitude of the trainee. This period could be even reduced to six weeks as there are instances in which trainees have finished their flying course and test in six weeks. But the written examination is held once in three months—in March, June and September and December of each year. The students should pass in an examination in Indian Aircraft Act and Rules. It consists only one paper and a candidate will be declared to have passed the examination if he obtains not less than 75 per cent of the marks.

'B' Licence Course.—'B' Licence course can be taken up after obtaining 'A' Licence, by those who want to become regular pilots and take up to the commercial lines and also enter into advanced course of Aviation. For this at least 200 hours of Solo and 50 hours of Dual are required and have to pass the required examinations. The period required will be about 2 years. This will cost about six thousand rupees, depending again upon the ability, capacity and aptitude of the pilot. The trainee will have to undergo Air Legislation and Other Technical examinations.

Hours of training.—Flying training is imparted both in the mornings and evenings, by well qualified, able and experienced Pilot-Instructors and under proper authority.

Jakkur Aerodrome is situated only at a distance of four miles from the Bangalore City limits. City Bus services run from Majestic Circle to Yelahanka *via* this Aerodrome, every 45 minutes. So, there is no difficulty about transport. Trainees will have to make use of this City Bus Service or make their own transport arrangements.

No Boarding and Lodging facilities are available at the Aerodrome. Trainees will have to make their own arrangements at Bangalore City.

Applications for admission can be had free from the Principal, Government Flying Training School, Jakkur Aerodrome, Yelahanka Post, Bangalore, on request.

Qualifications.—The trainees should have passed S.S.L.C. or Matriculation and must possess good knowledge of English.

Age.—Students should be below 28 years of age. If the students are below 28 years of age they will be entitled to a concession in the flying fees. If they are more than 28 years of age, they will still be admitted but they will not be entitled to the concession in flying fee that is given by the Government of India to those who are below 28 years.

Medical Certificate and Physical Fitness.—Students should possess good physique and eye sight and should produce a Medical Certificate from an approved Doctor.

Initial Deposit.—A sum of Rs. 600 should be deposited initially. This amount will be adjusted towards admission fee during the first month and towards his flying fees and membership fees subsequently. The membership fees is Rs. 5 a month. The flying fees is Rs. 25 per hour for Tiger Moth Aircraft and Rs. 20 per hour for Aeronca Aircraft. Trainees can qualify themselves for the 'A' Licence standard, *i.e.*, (Preliminary) or the 'B' Licence standard which is advanced.

'A' Licence.—The 'A' Licence standard is taken up by most people as a Hobby. But young men of the Colleges and members of National Cadet Corps who possess this licence have a definite advantage if they choose to join the Indian Air Force of the Indian Defence Services. They will be shown a concession in the age if they want to appear for the commissioned ranks in the I.A.F. It is therefore very advantageous to the College students and candidates of N.C.C.

For 'A' Licence Course a trainee has to put in approximately 20 hours of Dual Instruction and 5 hours of Solo, and pass the flying tests as well as written examination conducted by the Director-General of Civil Aviation, New Delhi. This examination is held at Bangalore. The period required for obtaining 'A' Licence is approximately 3 months, the duration depending upon the ability, capacity and aptitude of the trainee. This period could be even reduced to six weeks as there are instances in which trainees have finished their flying course and test in six weeks. But the written examination is held once in three months—in March, June and September and December of each year. The students should pass in an examination in Indian Aircraft Act and Rules. It consists only one paper and a candidate will be declared to have passed the examination if he obtains not less than 75 per cent of the marks.

'B' Licence Course.—'B' Licence course can be taken up after obtaining 'A' Licence, by those who want to become regular pilots and take up to the commercial lines and also enter into advanced course of Aviation. For this at least 200 hours of Solo and 50 hours of Dual are required and have to pass the required examinations. The period required will be about 2 years. This will cost about six thousand rupees, depending again upon the ability, capacity and aptitude of the pilot. The trainee will have to undergo Air Legislation and Other Technical examinations.

Hours of training.—Flying training is imparted both in the mornings and evenings, by well qualified, able and experienced Pilot-Instructors and under proper authority.

Jakkur Aerodrome is situated only at a distance of four miles from the Bangalore City limits. City Bus services run from Majestic Circle to Yelahanka *via* this Aerodrome, every 45 minutes. So, there is no difficulty about transport. Trainees will have to make use of this City Bus Service or make their own transport arrangements.

No Boarding and Lodging facilities are available at the Aerodrome. Trainees will have to make their own arrangements at Bangalore City.

Applications for admission can be had free from the Principal, Government Flying Training School, Jakkur Aerodrome, Yelahanka Post, Bangalore, on request.
